

Martin

YOUR PARTNER IN THE MA

The world of Cruise Ships is, in a sense, a world of make believe – an absolute escape from the everyday – whether you're on deck, at the pool, in the theatre or strolling through the shopping mall.

Everything around you is set to a tone that has no relevance to the everyday grind that you have escaped from.

Those who design and specify the lighting on ships have this goal in mind – to create a fantastical stage upon which the passengers may play out their holiday roles without the interruption of their normal lives.

To this purpose, Martin is the perfect partner in fulfilling this goal through the most functional solutions.

POOL DECK AREA

THE THEATRE

Martin was born out of the theatre and its world of make believe. Today you can find Martin products lighting the world's largest tours, musicals, concerts, stages, cruise ships and more. Martin architectural lights also dynamically line countless corridors, shops, malls and bars and illuminate some of the most spectacular structures across the planet.

Martin fully understands the power of dynamic lighting and its uses - its ability to lift and swing moods and transform the everyday into something else – something almost magical.

And because of Martin's extensive distribution network and wholly owned subsidiaries across the globe, Martin can offer on-site support anywhere in the world!

This unique service goes beyond the installation and programming period to routine servicing and adjustments, ensuring you get the utmost out of your fixtures wherever you are in the world.

ICE-SKATING RINK

ONE OF THE MOST VALUABLE THINGS FOR ME IS OF COURSE THAT MARTIN HAS GREAT PRODUCTS, BUT I ALSO VALUE THEIR ABILITY TO PROVIDE THE TOTAL PACKAGE - NOT ONLY SHOW LIGHTS AND CLUD EFFECTS, BUT THE WHOLE RANGE OF INDOOR AND OUTDOOR FIXTURES AND CONTROLLERS.

BESIDES THEIR EXCELLENT PRODUCTS, WE ARE VERY SATISFIED WITH THEIR AFTER SALES SERVICE AND I THINK MARTIN'S GLOBAL SERVICE AND TRAINING IS WHAT SETS THE COMPANY APART.
