

Tech Note

VDO Sceptron & Fatron end gables

Some customers experience that the end gables of their Sceptron and Fatron diffusers fall off, due to rough handling.

We cannot support the gluing process with a procedure, only recommend what type of glue that should be used. And as different brand of glue is only available in some geographical areas, we can not specify a brand.

Use a Polycarbonate compatible glue for refitting new end gables to diffusers.
