

# Martin M-DMX

M-DMX can use M-PC as software that will run on a Windows PC and can be downloaded [here](#).

The Martin M-DMX Interface features two 5-pin XLR female connectors, providing two DMX 512 universes via USB from any Windows-based PC. It communicates with Martin M-PC, all Martin M-Series consoles, Martin LightJockey™ (with Martin One-Key™) and Martin ShowDesigner 6™. When used together with M-PC, M-DMX allows bidirectional RDM communication, letting you change settings or addresses and access sensor data remotely on RDM compatible fixtures. As a bonus, M-DMX unlocks 2 universes for the M-PC Free Edition up to 4 universes can be unlocked with no Martin One-Key™ dongle required, making the M-DMX a fully-featured lighting control system.

## GALLERY

Plug-and-play solution that comes complete with USB cable and installation notes

Convenient, space-saving stackable design

2 DMX universes - configurable for in/out, DMX 512-A (RDM-compatible) and upload of fixture software files (MU3)

## FEATURES

- Plug-and-play solution: comes complete with USB cable
- and installation notes
- 2 DMX universes - configurable for in/out
- DMX 512-A (RDM-compatible)
- Upload of fixture software files (MU3)

## TECHNICAL SPECIFICATIONS

### Physical

Length: 92 mm (3.7 in)  
Width: 82 mm (3.3 in)  
Height: 41 mm (1.7 in)  
Weight: 245 g (0.6 lbs.)

### Control/User Interface

Capacity: Up to two DMX universes  
Configuration and management: Application (e.g. LightJockey™, M-PC™)  
Device status: 3 x multicolor status LEDs

### Construction

Housing: Aluminum  
IP Rating: IP20  
Non-domestic use in dry location only

### Connections

DMX data: 2 x 5-pin locking XLR, both configurable for DMX in/out  
PC/controller: USB 2.0  
K-Lock security slot

### Electrical

Power: 5 VDC over USB  
Maximum current: 300 mA

### Thermal

Ambient temperature: 0° – 50° C (32° – 122° F)

Included Items

USB cable, 1.5 m (4.9 ft.)  
Martin One-Key™ dongle (included with P/N 90737060 only)
